Tashkent, Uzbekistan

Junior Frontend Web Developer

Education

Najot Ta'lim — IT Course (Graduated 2024)
Tashkent Institute of Textile and Light Industry — 2025–2029

Experience

Intern — June 2024 – August 2024

Frontend Web Developer — August 2024 – Present

- Built a responsive CRM Web Application using React.js and React Query.
- Implemented dynamic user interfaces and reusable UI components.
- Integrated REST APIs for managing user data and dashboards.
- Focused on performance optimization and clean code architecture.

Technical Skills

Frontend: HTML5, CSS3, React.js, Next.js, Vue 3

Languages: JavaScript (ES6+), TypeScript

State Management: React Query, Context API

Styling: SCSS, Tailwind CSS, Bootstrap

Version Control: Git, GitHub

Build & Package Tools: NPM, Vite

Other Tools: REST APIs, Axios

Projects

Admin Panel (CRM Web Application) — 2024 – Present

- Developed a responsive and scalable admin dashboard using React.js and Vite.
- Implemented React Query for server-state management and efficient data fetching.
- Added i18n for multilingual support and improved accessibility.

(Internal company project — not publicly available)

Merchant Dashboard (CRM System) — 2024 – Present

- Created a merchant-facing interface using React.js and Vite.
- Focused on order management, analytics, and dynamic filtering features.
- Integrated REST APIs with React Query and optimized data handling.
- Designed intuitive UI elements with Ant Design for better UX.
